

Why Xtend[®] Connect?

Take control of your prosthetics with a multi functional adapter

- Quick and easy changes of complete prosthetics for various activities
- Get dressed/undressed in a minute
- Handy for travelling
 - no need to pack several complete prosthetic legs
- Quick and easy change with only one hand possible
- Double security with safety button as well as locking wheel
- Change a complete foot instead of shoes – much simpler and quicker
- Fits all types of users, both uni- and bilateral, above and below knee, and to most prosthetic systems used today
- All integrated – no parts to loose

Available with orange or black locking wheel
